## Power Product Overview

### **Overview:**

This one day course will give an overview on each power wheelchair available in the Invacare® range. Participants will gain an understanding of the various user groups and which models best suit their needs. The course will outline the available seat systems, configuration possibilities and various options and accessories as well as build knowledge on the compatibilities and non-compatibilities in the range. A product workshop will be available to give participants the opportunity to have a closer look.

### **Course Content:**

- Overview of the power product range
- Look through prescription forms
- Electronic spare parts catalogue
- Product workshop session

### **Who will benefit from the course?**

- Technicians
- Rehab Engineers
- Invacare® Dealers
- Occupational Therapists

**Course level:** Basic

**Price:** Free of charge
