## Action3 NG

The market-leading Action3 NG is easy to set-up and offers an extensive range of cross-compatible options and accessories to help meet a vast range of different requirements. Perfectly suited for those who require a more basic wheelchair to those who have progressive and more complex needs. It's smooth ability to transform between configurations makes re-use and refurbishment simple.

The Action3 NG Dual Handrim Propulsion is also available on contract. It is specifically designed for hemiplegic use and ease of propulsion, this handrim with QR mechanism makes the chair easily foldable.

## Action4 NG

The new and improved Action4 NG has been redesigned with a weight reduction of nearly 1 kg and maintains its outstanding functionality. Featuring a double cross brace system, the Action4 NG now offers a more stable, easier drive. Enhanced with lightweight options and accessories to reduce energy consumption and aids effortless propulsion, this new quality design is echoed throughout the range with its high cross-compatibility.

## Action5

The Invacare Action5 has been designed for the more active individual, looking for an affordable chair with great drive performance and the ability to fold easily for handling, storage and transportation purposes. With its two new advanced innovations (patent pending) and lightweight construction, the new Action5 gives individuals a chair they can enjoy and rely on.

## Rea Azalea

Our best selling Rea Azalea wheelchair is the natural choice for managing all aspects of postural support and comfort. It is available in three chassis sizes with options of both transit wheels for attendant propulsion, or self propel wheels for the moderately active individual. The seating system is versatile in its wide choice of support options and in the adjustments it offers. Making the Rea Azalea the market leader in tilt in space wheelchairs.

## Rea Azalea Base

Rea Azalea Base is designed for people seeking a custom-made seat combined with a first-class wheelchair base. The Rea Azalea Base is wider in the rear section of the seat, offering the possibility to use larger seating systems on smaller frames. As there are many balance options, the pushing is easier thanks to more weight positioned over the rear wheels. Another key feature of the Base is the 'Tilt in Space' function - a weight shifting mechanism that ensures reliable stability for the client. All the advantages of our standard Rea Azalea models are included.

## Rea Dahlia 30°, 45° & Base

The Rea Dahlia has it all, a slim and compact wheelbase in a modern design. It incorporates an adjustable centre of gravity option and a light and easy tilt and recline function. For those seeking mobility with comfort and pressure relief, this versatile chair is perfect for both passive and active clients alike.

The Dahlia features two tilt angles of either 30° or 45°, which improves the positioning capabilities as the tilt and recline options reduce pressure. Component Cross-Compatibility (CCC) across the Rea product range includes the Flex3 seating. The Rea Dahlia Base is also available on tender contract.

# Invacare Paediatric Wheelchairs on Contract

## Action 3 Junior

This lightweight, foldable wheelchair has been designed with children in mind, encompassing freedom, fun and style with comfort. It's modern design options make it a wheelchair to be proud of with its integrated width and depth growth ability, the child and the chair can grow together, making it a true companion.

## Bora Teen Seating System

The Invacare Bora Teen is a compact powerchair with a new sense of style to match an individual's lifestyle and personality. This remarkable design boasts a powerful yet smooth driving experience with enhanced colour options for a unique look and feel. The powerchair comes with a wide range of colour options, smaller seating (now from 12" x12" to 15" x20"), a compact design and simply smart LiNX control system.

# Invacare Powerchairs on Contract

## Pronto M41

The Invacare® Pronto M41 is a compact, manoeuvrable indoor power wheelchair that also has excellent outdoor driving capabilities. It combines smooth mid-wheel drive and Surestep® suspension with a broad choice of seating options. Its sleek, stylish shrouding ensures the Pronto M41's looks are as engaging as its performance.

The Pronto M41 Cab Seat is also available on contract. The Cab Seat option with padded back and integral headrest offers the benefit of flip up armrests for easy transfers.

## Pronto M41 Modulite

Versatile and compact mobility for everyday use. The Invacare® Pronto M41 Modulite is a sleek and highly versatile indoor power wheelchair. It offers an excellent range of seating options to address complex postural needs providing support and comfort. It is designed to perfectly suit your independent lifestyle - wherever you choose to be.

## Kite

Invacare® Kite is a power wheelchair packed with features! This highly adaptable powerchair comes equipped with unique suspension system that guarantees superior driving comfort and traction. Kite is designed for you if you love outdoor activities yet still require a compact chair in your everyday life.

## Fox

The Invacare® Fox has been designed to help maximise independence. As well as meeting your practical needs, Fox is also very comfortable, great looking and safe. With its highly efficient motors and easy to use controls, it is ideal if you want to travel a distance every day. It offers a sleek compact wheelbase for excellent manoeuvrability in tight spaces.

## Bora

The Invacare Bora is a compact chair with a new sense of style to match an individual's lifestyle and personality. This remarkable chair boasts a powerful yet smooth driving experience with enhanced colour options for a unique look and feel.

## TDX SP2 Narrow Base

The highly popular Invacare® TDX® SP2 NB is the ultimate combination of comfortable seating with a compact, stylish, high performance driving base. Whether effortlessly managing tight indoor environments or confidently performing in challenging, outdoor terrain, the TDX SP2 NB is the centre wheel drive that offers the total driving experience.

The TDX SP2 Standard HD powerchair is also available contract.

## TDX SP2 Low Rider

The TDX SP2 Low Rider features a drop down seat unit to boast unrivalled low seat to ground heights of either 403mm or 420mm. This allows practical driving positions combined with the ability to easily access WAVs, fit under tables and align with a variety of transfer surfaces.

# Invacare Power Assists on Contract

## Alber E-Fix

The E-fix is an electrical add-on drive for your wheelchair. Designed to make longer distances quick and easy. It's quick and simple to use featuring a lightweight battery pack and new slimline hand controller. Now converting your manual chair to power couldn't be easier. Simply swap the drive wheels and install the battery pack and control unit - all done.

## Alber Emotion

The E-motion merges active mobility with therapeutic benefit. Even wheelchair users with impaired strength can move around independently with the help of E-motion. Users have the opportunity to stay mobile while exercising their vital functions. The load on muscles and joints is reduced. Only minimal force is required to self propel the chair and the user's active range is increased. E-motion makes a vital contribution to its owner's independence.

## Alber Viamobil Eco V14

The intuitive ErgoDrive control concept of the viamobil eco makes the wheelchair outstandingly ergonomic and convenient to push and brake. To move forwards or backwards, you simply press the handlebar down or up – a very "natural" method of operation and therefore easy to learn.

## Alber Viamobil V25

The Viamobil V25 is a simple and effective power add on that allows you to get out and about in a quick and easy solution. The push and brake aid can be quickly attached to most makes of manual wheelchairs. The drive motor simply attaches to the rear of a chair while the ergonomically designed hand controls fit neatly onto the push handles providing a quick and simple solution.

# Invacare Scooters on Contract

## Colibri

The Invacare® Colibri is a stylish, simple and colourful lightweight scooter, designed for those who enjoy a totally independent lifestyle. Thanks to the unique Invacare® Litelock™ system the scooter can be taken apart easily without the need for tools and fits neatly into any car boot.

## Leo

The Invacare Leo® 4 wheeled scooter offers individuals the freedom and confidence to enjoy everyday activities. Safety is offered as a key feature on the Leo, but this does not detract from its stylish and sporty looks. With high standards of design and safety engineering, the Leo sets a new market standard.

## Orion Metro

The all new, ergonomically designed Orion METRO has been designed from the ground up to focus on key aspects important to both new and seasoned scooter users. As a result, it is equipped with numerous features to ensure users experience a safe, easy and enjoyable ride.

## Orion PRO

The Orion PRO is the ideal scooter for longer trips into town or afternoons driving around the park with your grandchildren. The new ergonomically designed Orion PRO is a powerful upgrade to our standard Orion METRO model. With enhanced battery performance, superior suspension and large 12" wheels, the new Orion PRO is ideal for individuals who need that extra performance.
