

Invacare® | **TDX® SP2**

Superior safety, stability and
a sleek design

LiNX®

The *Invacare TDX SP2* boasts durability and ultimate performance in a modern, contemporary style. Great manoeuvrability indoors and out, with a wide choice of seating for optimum comfort and support makes this remarkable chair ideal for individuals who need full functionality, but do not want to compromise on style. Sitting alongside the TDX SP2^{NB}, it has a higher weight capacity with larger batteries and range ability. Key features include:

- Enhanced stability
- Intuitive driving experience
- LiNX Smart Technology
- Small turning radius

Enhanced stability

The **TDX SP2** is tried, tested and tough. Offering maximum stability and safety, the Stability Lock function ensures all six wheels stay firmly on the ground on uneven terrain. The patented **SureStep**[®] suspension technology enables a smooth ride while negotiating challenging surfaces. With a higher weight capacity and greater driving range, the **TDX SP2** enables you to go further.

Intuitive driving experience

Invacare TDX SP2 customers can say “Yes” to mobility and “No” to compromise. With an incredibly tight turning radius, thanks to its Centre Wheel Drive, this remarkable wheelbase provides excellent manoeuvrability and an intuitive driving experience.

LiNX Smart Technology: Redefining Mobility

Invacare LiNX is our insight inspired control system with advanced technology that provides a superb driving experience and allows professionals to configure and tailor powerchairs quickly and more intuitively. The smart control system enables programming and maintenance updates to be made wirelessly and in real time, plus it has straightforward access to statistical and diagnostic information, giving complete visibility to professionals.

Touchscreen technology

The **REM400** remote has an impressive 3.5” colour touchscreen that requires minimal force to operate. Bringing modern technology to the powerchair market, this innovative interactive remote can be configured to a clients’ physical and cognitive ability.

Secondary remotes

LiNX offers a selection of secondary remotes for those unable to use a standard remote joystick, thereby maximising their control and independence. This includes a compact remote, a compact remote with low force operation, an extremity control joystick as a chin control and dual control options.

Built in Bluetooth

The REM400 remote allows individuals to be connected to 3 devices simultaneously and has mouse move functionality.

Features and options

USB charger

2 x USB 2.0 ports supply up to 1A each to keep devices charged. Rail mounting feature enables easy access.

LiNX G-Trac® technology

G-Trac ensures the directions indicated by the control are followed by the chair.

Single sided fork

Minimises the front width of the base with no protruding screws or fork parts.

DuraWatt motors

Quiet motors with sealed lifetime brushes reduce potential brush tolerance issues.

Black tyres and castors

Black non-marking tyres and castors with the black rim give the chair a stylish modern look.

SureStep® and Stability Lock

Allows easy obstacle climbing and guarantees a smooth downward transition.

True centre wheel drive

Allows excellent manoeuvrability in narrow spaces and ensures an intuitive driving experience.

LED lighting system

Attractive, energy saving LED lights can be integrated in a well-protected position in the rear shroud.

Seat lifter

Provides easy access to higher objects and the tilt allows relaxation and pressure re-distribution.

Powered fixed pivot tilt option

Allows the seat angle to be repositioned by up to 20°.

Powered tilt-in-space

A maximum seat angle of 30° ensures comfort and safety.

Side mounted legrest

Choice of manual or powered elevating versions.

LNX powered centre mount legrests

Offers an active seating position and enables legs to be positioned at a 90° angle.

Powered recline

Has a high pivot point for natural movement as well as a quick release mechanism for easy folding and transportation.

Telescopic inner frame

A dedicated lower profile inner frame, along with 'tilt' and 'lifter and tilt' provide an optimised 'seat to floor' height.

1. Invacare **Modulite™** seat components are cross compatible across the Invacare powerchair range and partly with the Invacare Rea® family.
